DESIGN STUDIO

shape your space

About Us

Where visionary design meets flawless execution. HR Design Studio crafts immersive residential and commercial environments that resonate with your story — from concept to completion in Hyderabad and beyond.

We Shape
Your Space
Into Art

Design Philosophy

Based in the heart of Hyderabad, HR Design Studio was born from a passion for crafting spaces that transcend the ordinary. We are a collective of young, zestful, and deeply passionate designers who believe that every room, every corridor, every corner holds the potential to become something breathtaking.

Our philosophy is simple yet profound: meeting your expectations is merely the foundation. We aim to exceed them at every turn — delivering designs that are not just aesthetically stunning, but deeply personal, highly functional, and built to stand the test of time. From the alignment of inner pipes to the texture of your ceiling, no detail is too small for our attention.

Skills and Tools

Holistic Design

From floor textures to ceiling details, inner plumbing to exterior aesthetics — we oversee every dimension of your space with equal devotion.

Personalized Approach

No two projects are alike. We invest time understanding your lifestyle, goals, and personality before putting pen to paper.

Expert Team

Our designers work with love and love the work — a blend of technical mastery and artistic sensitivity that produces extraordinary results.

Full Lifecycle Support

From initial consultation and 3D planning through execution and final handover — we're with you at every step of the journey.

Turning Vision into Poetry

3D Visualization

Experience your space immersively before a single brick is laid with our advanced 3D technology.

Quality First

Uncompromising standards with premium materials and expert craftsmanship at every stage.

On-Time Delivery

We honor every deadline with disciplined project management and transparent milestones.

Transparent Pricing

Clear, honest quotes with no hidden costs — your trust is more valuable than any project.

Project 1

CNR Rehab Center

We approached the design of this rehabilitation space with a focus on creating a calm, supportive, and highly functional environment that promotes healing and well-being. The layout was carefully planned to ensure smooth circulation, accessibility, and safety, while also offering zones for therapy, rest, and social interaction.

Natural light, soft textures, and a soothing color palette were incorporated to reduce stress and enhance comfort, while durable, hygienic materials were selected to meet clinical requirements. Every element—from furniture ergonomics to spatial flow—was thoughtfully considered to support both patients and caregivers, resulting in a space that balances medical efficiency with warmth and human-centered design.

22,800 s.ft
30 Rooms
1 Operation Theatre
15 bed ICU
6 Consultation Suites
2500 s.ft Ortho Rehab Space
150 Pax OP Area

Project 1

HOSP. & REHAB

Project 2

HOTEL SOWJANYA ELITE

18,000 s.ft
32 Deluxe Rooms
4 Executive Rooms
1000 s.ft Dining Area
3000 s.ft Banquet Area
200 pax Banquet Dining

Project 2

HOTEL SUITES

We approached the design of this hotel space with a focus on creating a warm, inviting, and memorable guest experience that blends comfort with refined aesthetics. The layout was thoughtfully planned to ensure effortless movement, functional zoning, and a sense of openness, while maintaining privacy and relaxation. Soft ambient lighting, a harmonious color palette, and carefully selected materials were used to evoke a sense of calm and understated luxury.

Project 3

MGM OILS

We had the opportunity to collaborate closely with Ponni Interioscapes to design and execute a refined office interior space in Tamil Nadu, blending functionality with contemporary aesthetics. Through a highly coordinated approach, the design intent was seamlessly translated into reality—balancing spatial efficiency, ergonomic planning, and a cohesive visual language.

12,000 s.ft
2 floors
7 Meeting Rooms
2 MD Rooms
2 Collab Zones
120 Pax R&D Workfloor
